

Campus Champions: Convincing Users on the Benefits of Utilizing OSC Resources

OSC Fall SUG Conference

Mike VanHorn

17 Oct 2019

Mike VanHorn

- Senior Computer Systems Administrator, College of Engineering and Computer Science
- B.S., Computer Science; MBA, Information Technology
- 22 years full time at WSU
- WSU Campus Champion since 2018

The Problem

- Many of my users could benefit from doing their computations on OSC resources
 - Some don't know it's available
 - Some know of OSC, but don't know how to use it
 - Some know of OSC, but don't want to learn

Some don't know of OSC

- Talk to faculty in general
 - They can utilize OSC themselves
 - They will (hopefully) pass the information along to students
- Talk to advisors
 - Directors of PhD programs
 - Directors of departmental graduate programs

Some know of OSC, but don't know how

- Intro to Supercomputing at OSC session
- Visit to PhD seminar

Some know of OSC, but don't want to learn

- Training to show them it really isn't that hard
- Bonk them on the head

Thank You!
